Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 28 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with showers, heaviest and most frequent in the east.

Today:
Cloud presides over the region through the day, with frequent showery rain throughout, heaviest in the east of the region and north Devon. Feeling cold and breezy throughout, blustery along northern coasts. Maximum temperature 13 deg C (55 deg F).

Tonight:
Showers, some heavy, will continue for a time this evening before easing into the night, leaving clear skies overnight for most. Feeling cold, with frost in rural areas. Minimum temperature 0 deg C (32 deg F).

Thursday:
A sunny start to the day throughout, with some patchy cloud later. Staying dry through the day, with just a few scattered showers in eastern parts later. Another cold night. Maximum temperature 12 deg C (54 deg F).

Outlook for Friday to Sunday:
Further scattered showers throughout on Friday, and likewise on Saturday though heavier and more frequent. Largely dry and fine with sunny spells on Sunday. Remaining cold, with overnight frosts likely.
